

Infinyte

It is all around you. We see it more and more in our everyday lives. An awareness of our environment. A priority to maintain it, enjoy it, and spend a little more time with it. A promise to our children to be a steward of it. Not a revolution, but most certainly an evolution. We see your family altogether enjoying time on the water. Finding a secluded spot, leaving barely a ripple behind. That unmistakable scent of fun and freedom you remember as a child suddenly filling your senses. Imagine yourself with your child or grandchild silently slipping from your dock. Fishing rods at the ready and the promise of an unforgettable day in front of you. Your conscience clear about your impact on the environment, and most importantly the lesson and legacy you leave that child sitting excitedly across from you waiting for a new adventure.

Infinyte's manufacturing facility uses Envirez®, a renewably sourced bio-derived resin from Ashland Performance Materials. Envirez® resin is the first resin that uses a substantial amount of soybean oil and corn-derived ethanol in its formulation.

The i4 uses advanced power and battery management systems. The boat comes standard with maintenance-free battery cells that are maintained by a state-of-the-art onboard battery charger.

Offering up to 10 hours of run time from a single charge, the i4 is easily recharged from a standard 240 volt household electrical outlet.

DEALER INFO

INFINYTE COMMITMENT TO SAFETY

Infinyte Marine is dedicated to safe boating practices. All models in our photos are wearing certified PFDs, though not always visible.

PFDs supplied by: Mustang Survival Corp | www.mustangs survival.com

Every effort has been made to ensure the accuracy of this catalog. Infinyte Marine reserves the right to make changes at any time, which may not be reflected in this issue. Some equipment shown may not be exactly as shown, or may show options available at an extra cost. For complete and accurate details, contact your Infinyte dealer. Weights may vary, depending on load and options.

i4 ELECTRIC

i4

FEATURES

- Amazingly light weight, the i4 can be easily towed by almost any size vehicle. (left)
- With the forward space of a much larger boat, the i4 boasts 2 forward loungers and seating for five. (right)
- 24 V twin motors, built by MotorGuide, a division of Mercury Marine, one of the most trusted and proven names in the business.
- Large aft deck. Two large storage lockers flank the integrated three-step folding ladder. (bottom left)

JOYSTICK CONTROLS

Our innovative joystick controls allow almost anyone to operate the i4 with virtually no learning curve.

Battery levels are constantly monitored and indicated on the joystick for your convenience.

INNOVATIVE FEATURES

The Infynyte i4 is the perfect cruiser. This boat features our 360 joystick maneuvering system, forward sun lounges and incredible versatility. Whether you are spending a day with your family on the water fishing, or out with friends for an evening cruise, the Infynyte i4 is perfect. Whisper quiet, it will give you up to ten hours of runtime before you need to plug into its onboard battery charger.

POWER AT YOUR FINGERS

All necessary functions are at your fingertips, including a 12v power outlet for your accessories. The integrated switch panel is backlit and all circuits are designed, built, and fused to the highest standards.
